

1 Visit Drug Science's T21 page to understand what the project is about:
drugscience.org.uk/project-twenty21-patients

2 Ensure you meet the criteria.

3 Choose a clinic:
drugscience.org.uk/clinic-directory

4 Await prescription approval by the Clinical Governance Board (anywhere from a few days to a few weeks).

5 Your consultant will give you an indication of whether or not they think you're a suitable candidate for medical cannabis and/or Project T21 and will discuss products and pricing with you.

6 Book an initial consultation with a relevant specialist (eg. pain specialist for pain). Make sure you select/mention/note Project Twenty21 when booking a consultation - only consultants with access to the T21 database system can prescribe the T21 subsidised products.

7 Upon approval, your prescription will be sent to the pharmacy within 2-5 days, they legally have to receive the hardcopy prescription before they can process your prescription. They will contact you for payment.

8 Medication is sent to your house.

9 Book a follow up appointment ASAP for 4 weeks after you start your medication.
